

TEN/ten\_do\_ten

Japanese pixel designer who connects dots to dots and design pixels.

Started to design as it is called "Megademo" for Amiga and Macintosh.

Studied under Gento Matsumoto while attending Musashino Art University in Tokyo.

He was a member of Delaware between 1995-2001, And designed many "Pixel Design" as the only graphic designer.

Started "ten\_do" web site in 2001, soon after 9 • 11.

"ten\_do" has been updated every Saturday, is being continued beyond the current 500 per week.

More than 20.000, for a mobile graphics have been published.

Works with dots as a pixel design originator, with sexy, domestic, crafty, crazy-stoic attitude, everyday.

Past works include wears, interface for cell phones, book designs, editorial works, musical designs, web designs, spatial designs, domestic design works, and client works and exhibitions, contributions, conferences overseas.

In recent years, has deployed a variety of fashion and product items with pixel textile named "ten\_ki\_style".

In parallel, took part in a variety of parties, and evenst in party as a member of the band called "japanese",

And released "miii\_diii\_jay" as a DJ with only MIDI sound source,

and "kill.me.no.now.wow" as a singer with record has been released.

Sometimes collabolated to make world's homely ctaft work with my wife jungjung, who is crochet knitter.

Released "ten\_do\_ten", never-before-seen, all-slanted pixel picture book.
